

# Inventory Sale

TO THE TRADE!!

Fellow Masonry Trade,

We have just opened a new line of inventory products and I just thought of a great way to kick it off. Offer you, the trades people, a great inside deal on all items currently in stock! If you happen to have a job that requires these items, that would be great, but this deal is intended for you and your friends, no JOKE. I'm willing to cut the already low inventory prices by another 20 % just to get you out here to see what we're up too! Ordering by the part is easy and if you'll give us some notice, we'll load your truck and/or trailer on the spot. A Local Delivery truck with forklift is available too. Some items will be discounted even more, (we made too many) like 16"x32"x2" Pavers/Panels @ \$3/sq. ft.! All colors are tan, except for an overrun of white paver/panels.

Just click this link to see what we have in stock!

Remember to deduct 20% from the list price.

Good from now until end of August!

*Rob Peterson*
