

## Pool Coping

### *What you will find in this section:*

This page deals with the most important aspects regarding the **ordering & definition** of Pool Coping. It deals with Primary View, Modifiers, and Major Dimensions Things to consider and Profiles.

### What to specify when ordering Pool Coping

- Select the Pool Coping Profile(s)
- Verify the Unit Size
- If used with Pavers, determine Profiles are compatible with Paver sizes
- Calculate the linear footage of the installation
- Determine the number of each standard part required for installation (Cope Outside Left, Cope Outside Right, Straight)
- Calculate quantities of each standard part
- Select stone color
- (If Applicable) Field Mitering: Determine whether to field miter inside corners or install cast inside corners
- (If Applicable) Inside Corners: Determine the number of inside corners required for installation (Cope Inside Left, Cope Inside Right)
- Will the order be for standard sized parts for cutting in the field or order pre-sized parts?
- Have you verified that stock parts, with repeating patterns, will work within the Pool Coping?
- Have you considered the addition of fountains, urns, or statues with this project?
- Have you considered using a double-sided profile?
