Organization Guide

Listed below are available catalog options as shown in this chapter. Refer to page 6 for a complete list of available TypeDescriptions, PrimaryViews and Modifiers.

Product Groups	Type Descriptions	Primary Views	Modifiers
Chimney Cap	Cap Chimney	SpecialShape SlightSlope	Rectangular

SL - Setting Line

A Setting Line (SL) is used to identify a specific point in which to control the installation of the parts. Depending on the installation of the parts, the Setting Line can be based on several controlling factors, for example: face of wall, drips, and controlling Profile shapes.

The Setting Line (SL) on this Profile shape, left, is set to create a natural drip for waterproofing concerns for brick or stucco installations.

Pricing Legend

Chimney Caps are calculated by Each Unit.

Refer to the Stone Legends Pricing Legend, located as an insert at the back of the catalog, for more information on calculating stone costs for catalog units.

Dimension Guide

- X Height of a unit. A control dimension.
- Z Maximum depth of a unit. A control dimension.
- Y Width of a unit. A control dimension.
