STONE LEGENDS

Cast & Cut Stone

Affluent people quickly discern the difference between the price of purchase and the cost of ownership. Stone implies permanence. We speak of it in terms of centuries, sometimes even millennia.

Architecturally speaking, stone serves both form and function, offering durability, strength, and design flexibility. Yet in the hands of a sculptor it becomes art. Where one stops and the other begins is better left to the imagination.

It is a unique experience to sit behind the wheel of these highly skilled people transforming you into the master builder, where your words and thoughts are cast in stone. One of the most rewarding experiences you will ever have.

With us you are a legend cast in stone.
