

## Design Options - Address Block

Make your Address Block a beautiful feature of your home

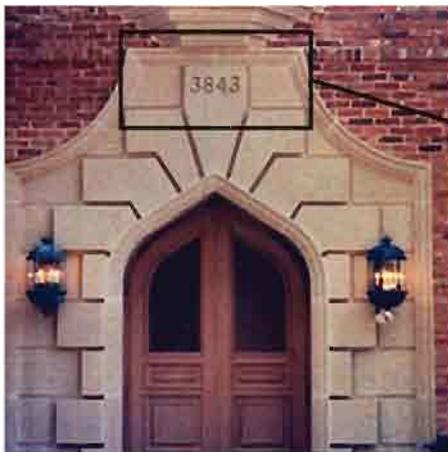

### Installed Examples

A Medallion Address Block with Street Number & Name Text finished in Black Paint.

A Custom Recess Address Block with Street number. Note unpainted lettering.

A Custom Gothic entry with recessed number. Note unpainted lettering.

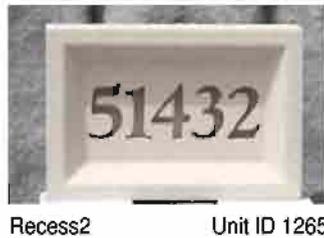

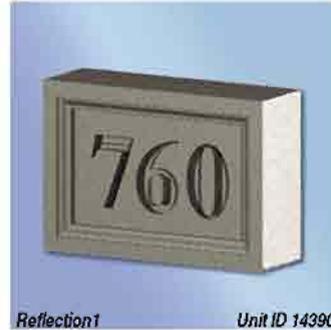

Address engraved as desired on any shape of stone. Note unpainted lettering.

Address Blocks can be custom designed to contain whatever text you require. Beyond basic Address Blocks we can produce cast stone panels that can contain any wording or image you want. See our product group, **17- Signage**, for complete freedom of design.

Figurine  
Stucco Wall

# Additional Notations

## Secondary Considerations

The following list of questions will help to identify situations that are not typical, but possibly critical.

- Will your numeric address fit within one of Stone Legends' standard address blocks?

## FAQ's

- Can the numbers be larger than that standard size?  
*Larger numbers are possible, however at least 1" of flat stone is required between the number and the border of the address block.*
- What is the standard font and can I use a different font?  
*Times Bold is the standard font used for address blocks. Custom fonts can be used however there would be an up charge for custom lettering and we would need you to supply a faxed image of any custom font.*
