

Stone Legends isn't specified on the plans.

Explains why Stone Legends products are the best choice to use on their plans

I see that another cast stone manufacturer was specified on the plans for your project. You certainly have the right to specify any materials you like in your project, and we wouldn't think of telling you how to do your job, but I would like to point out how Stone Legends can make your cast stone projects so much easier.

Our website may be of great assistance to you. Thousands of our products are available for download as 3D CAD drawings ready to drop into your plans. You can find our comprehensive online catalog at www.stonelegends.com, along with a wealth of technical information and all specifications for our products. Call us if you have any questions or if something you want isn't available. We want to make specifying us a convenience and time saver, and we are happy to help you in any way we can.
