

Master Sculptor

Jeff Liston

Jeff has over 20 years of professional artistic and sculpting experience

At Stone Legends we are extremely proud of our highly talented artists. These artists create astonishing stone sculptures that are displayed proudly in residential homes and commercial projects throughout the United States. They can take a single block of clay and mold it into a marvelous work of art. Let our artists sculpt your next dream.

Master Sculptor Jeff Liston has been a working artist for over 28 years. He attended the Dallas Arts Magnet High School where he studied Visual Art, and graduated in 1980. His education includes Dallas County Community College and the Art Center College of Design in Pasadena, Ca where he studied Commercial Photography. He returned to Dallas, TX where he pursued a career in photography, while also continuing to sculp on the side. In 1990 he accepted a teaching position at Booker T. Washington High School for Visual and Performing Art teaching photography.

After a successful teaching career, he decided to take up sculpting full-time. His first major project was for Mattel Toys, sculpting giant toys for the toy fair in New York City. He also sculpted the Keebler Elf Tree, (a 21' tall traveling display). Another undertaking was designing and sculpting the star for New York City's Rockefeller Center Christmas Tree. Due to the fact that all sculpting clays were too soft for our processes, Jeff has invented a new type of sculpting clay called "Superior Clay". You can learn about this revolutionary new product at www.texclay.com.
