Subject: Business Appreciation Letter

Dear Richard and Fred:

Lehigh Cement Company has had the privilege of supplying CSCS with most of its white cement needs for the last twelve years. In all that time there has never been a late payment issue and in fact a lot of times CSCS paid before the due date. This is a very unique situation in the construction materials' industry and deserves to be recognized.

We at Lehigh Cement Company certainly do enjoy your business, appreciate your acumen and congratulate you on your prompt pay policies. In this trying economy your company certainly takes care of business, a sure sign you will still be a successful business when the Recovery happens.

Thank you very much and we look forward to serving you in the future.

Sincerely,

Jeff Shannon
Vice President, Sales & Marketing
